APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 53076 is issued subject to the terms and conditions imposed in said Permit 53076 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 55464 and 55465 shall not exceed 7.98 acre-feet annually.

Permits 55464 and 55465 are limited to the irrigation of 1.995 acres of land within the described place of use.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed..... 0.00279 cubic feet per second, but not to exceed 2.02 acre-
 feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before..... November 18, 1992

Proof of completion of work shall be filed before..... December 18, 1992

Application of water to beneficial use shall be made on or before..... November 18, 1994

Proof of the application of water to beneficial use shall be filed on or before..... December 18, 1994

Map in support of proof of beneficial use shall be filed on or before..... December 18, 1994

Attachment, Amended Application No. 55464

Item 15. Remarks

Water appropriated under Permit No. 53076 is proposed to be used in conjunction with water appropriated under permits No. 48916 and 52916. Total amount of water appropriated by the three permits is 16.38878 acre feet annually. Permit No. 48916 provides for quasi-municipal use, and Permit No. 52916 provides for domestic and irrigation use. Application No. 55463 has been filed to change the point of diversion and place of use for Permit No. 48916, and Application No. 55465 has been filed to change the point of diversion and place of use for Permit No. 52916.

Permit No. 52916 and 53076 provide total appropriation of 7.98 acre feet annually for domestic and irrigation purposes. The Applicant proposes to irrigate 1.995 acres of land within the proposed place of use, utilizing the water appropriated by Permits No. 53076 and 52916, in order to establish beneficial use. After establishing beneficial use by irrigation, and receipt of Certificates of Appropriation from the State Engineer, the applicant proposes to use the water originally appropriated under Permits No. 48916, 52916 and 53076 to support subdivision of land and development of not more than eight single family residences. When the single family residential development is initiated, irrigation of land by water originally appropriated by Permits No. 52916 and 53076 will be discontinued and certificated water rights will be apportioned to separate residences, 2.02 acre feet per residence.

The intermediate step of establishing beneficial use by irrigation is necessary to comply with a policy of the Washoe County Board of Commissioners requiring that certificated rights be provided to support subdivision of land. The Washoe County Board of Commissioners has jurisdiction and authority to allow subdivision of land under Nevada Statutes and Washoe County Ordinances.
